ABOUT ME

Recent graduate from UC Irvine's continuing education in full stack web development. Pro at web development and making things look beautiful.

What do I bring to the table?

I am a dedicated, mission-focused, creative, and an energetic professional who is motivated to work within cross-functional teams to meet deadlines and exceed expectations.

I don't want...

Just another job. I want to solve problems and make people's lives easier in a community that shares my passion for technology.

The tech | HTML5, CSS3, JavaScript, jQuery, Node.Js, MySQL, MongoDB, React, Git & more.

PROJECTS

Pokémon Index

- A web application that shows the types, stats, weakness and strengths of the first 151 Pokémon.
- JavaScript, HTML5, CSS3, Materialize, Pokémon API and Pokémon TCG API

Deal Tracker

- A web application that allows sales executives to create deals and move them through a visual pipeline at each stage in the sales process.
- JavaScript, HTML5, CSS3, Fomantic, Node.js, Express.js, Express-React-Views, Sequelize and MySQL

Project 3 - Coming soon ...

EXPERIENCE

Verbal Behavior Associates

- Provide individualized services and support to children with autism and other cognitive disabilities and conditions.
- Design support plans to aid each client in developing social skills, improving learning strategies, eliminating or reducing negative or disruptive behaviors, and other key areas of support.

Nordstrom

- Supported the daily operations of a popular retail store by unpacking new merchandise shipments, preparing items for sales, maintaining an orderly and safe stock room, performing inventory and markdown analysis, and more.
